PERSONAL PORTFOLIO / 2026

Learning today. Building tomorrow.

I am a Computer Science student at the University of Agriculture, Faisalabad, with a growing interest in Artificial Intelligence, Machine Learning, and Cloud Computing. I enjoy exploring new technologies and building practical software projects. My goal is to develop reliable, useful applications while strengthening my technical skills.

BSCS	2027	AI/ML
Degree	Expected Graduation	Career Interest

01 Education

Bachelor of Science in Computer Science
2023 — 2027

University of Agriculture, Faisalabad

Faisalabad, Punjab, Pakistan · 7th Semester

Relevant coursework includes Artificial Intelligence, Machine Learning, Design and Analysis of Algorithms, Mobile Application Development, and Data Structures.

FSc Pre-Medical

Punjab College, Hasilpur

Hasilpur, Punjab, Pakistan

02 Experience & Training

AI & Machine Learning Training

Google Cloud Skills Boost

Completed Google Cloud Computing Foundations: Data, ML, and AI in Google Cloud. Explored cloud concepts and AI/ML learning resources.

Student Developer

Academic & Personal Projects

Developing software projects as part of university coursework and independent learning, with a focus on AI/ML, mobile applications, and data processing.

03 Featured Projects

Core Strengths

- Problem solving
- Analytical thinking
- Continuous learning
- Team collaboration

Languages

English — Intermediate

Urdu — Native

SmartScanner

An Android application that extracts text from images and supports document scanning and PDF creation.

Java · Android · ML Kit
